

1. Log into Okta (<https://westfieldlabs.okta.com>)
2. Click on **Settings** under your Name menu.

3. Click on **Edit Profile** (Okta may prompt you to re-enter your password at this stage. Please do so.)

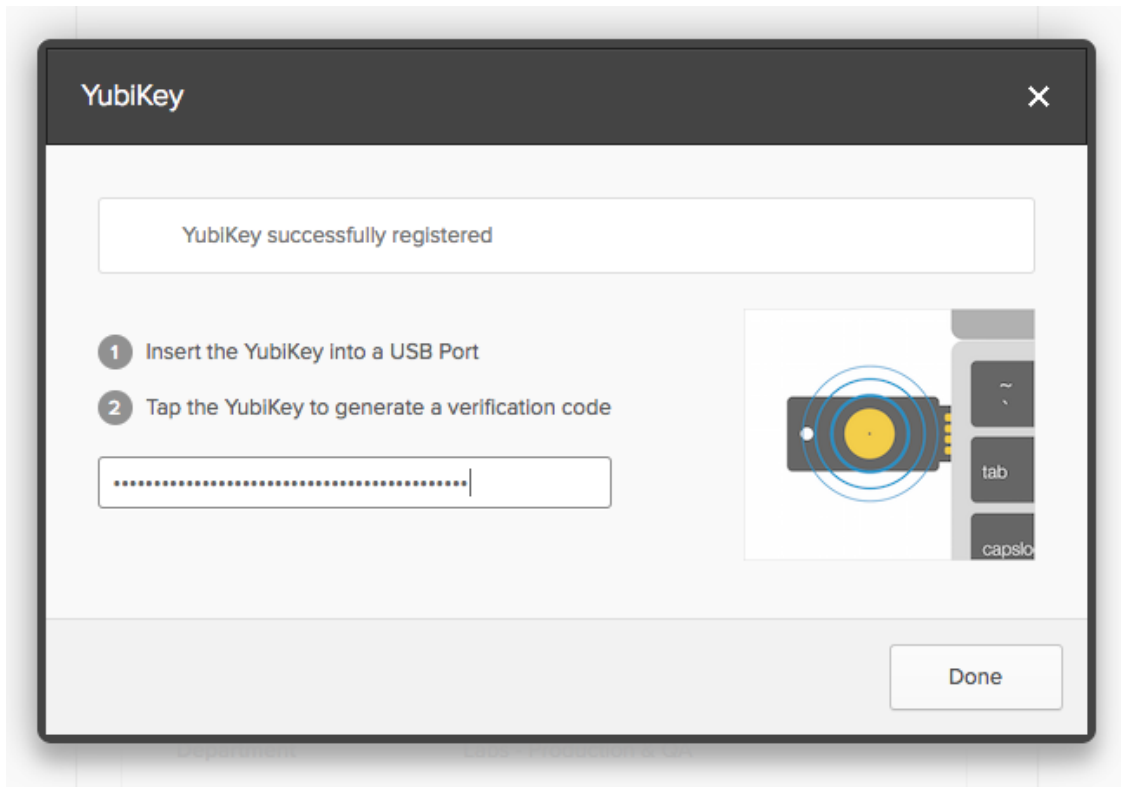

4. Scroll down to **Extra Verification**. Click on **Setup** next to **Yubikey**.

5. Insert the **Yubikey** into a USB port on your computer.

6. Tap or press the circle on the **Yubikey**. Doing so will fill in the blank text line and confirm that the **Yubikey** is recognized.

7. Click **Done**. Your account is now tied to your **Yubikey**.
